

ENERGY  SISTEM

ECO AUDIO

Say hello to sustainable music.

A scenic landscape featuring a valley filled with thick, white fog or low clouds. In the foreground on the right, there is a dense forest of dark green evergreen trees. In the middle ground, a small, light-colored building is visible on a hillside, partially obscured by the fog. The background consists of rolling mountains under a sky with soft, layered clouds in shades of grey and light orange, suggesting a sunrise or sunset. The overall mood is serene and atmospheric.

Say hello to sustainable music

We take care of what really matters.
All our Eco Audio products are made from
eco-friendly materials.

Earphones Eco

Cherry Wood

Earphones Eco

Walnut Wood

Made from 100% eco-friendly materials, these earphones minimise environmental impact by optimising and reducing materials such as plastic and paper to help create a more sustainable society.

Speaker Eco

Beech Wood

Earphones Eco

Walnut Wood

Sustainable earphones made from natural walnut wood.

In-ear design earphones made from sustainable materials such as wood and hemp. Type-C connector and built-in digital audio converter (DAC) for HD sound. In-line microphone.

Core sustainable earphones

Earphones made from FSC certified natural walnut wood coming from sustainably managed forests to ensure the manufacturing materials are eco-friendly.

Environmentally responsible materials

Details count. Enjoy a natural sound on these earphones featuring a cable made from hemp fibre, which is a natural, fast-growing resource. This way, we make a responsible commitment to nature.

Smart natural sound

Your music has never sounded so sharp. These wood earphones include a coated type-C connector and an organic cotton pouch to protect your earphones naturally.

Earphones Eco Cherry Wood

Sustainable earphones made from natural cherry wood.

In-ear design earphones made from sustainable materials such as wood and hemp. Created to provide a balanced sound, clear treble and powerful bass thanks to the dynamic sound adjustments. In-line microphone.

A natural design inside and out

In-ear design earphones made from FSC certified natural cherry wood ensuring the materials used come from sustainably managed forests.

Feel free

Hemp cable with multifunction microphone providing a more natural sound thanks to organic materials obtained straight from nature. Enjoy enhanced sound performance while preserving the environment.

Connected to nature

Listen to your music naturally. These earphones feature a wood coated 3.5 mm connector. An organic cotton pouch helps protect and carry them wherever you go.

Speaker Eco

Beech Wood

Sustainable speaker made from natural beechwood.

Portable speaker made from eco-friendly wood and organic fabric. It features Bluetooth 5.0, True Wireless Stereo technology to pair two speakers simultaneously and a rechargeable lithium battery with 14 hours of battery life.

Nature in your hands

A speaker made from natural beechwood and organic fabric for a durable finish. Enjoy your music with enhanced sound quality. Feel a perfect connection between technology and nature thanks to the built-in touch controls on the top part.

Multiply your sound output

Give your music a boost and share it with your loved ones thanks to True Wireless Stereo technology. You can sync two speakers and play music simultaneously with twice as much power.

Connected to you, connected to the world

Listen to your music the way that suits you best. Play music on your smartphone or tablet via Bluetooth, use the USB port or listen to your favourite stations and programmes on the FM radio.
