Connect with art and music

Listen to your music like never before. Discover a 2.1 audio system with 50 W power fitted in a canvas. A musical work of art created to match your home decor perfectly. Play your music through two Frame Speakers simultaneously thanks to True Wireless Stereo technology.

Music for hours on end

The perfect combination of art and music.
Speaker featuring Bluetooth connectivity and
20 hours of battery life to enjoy your music in
every room of the house.

Art as a way of expression

Antonyo Marest was born in the Mediterranean. The figure of the palm tree is one of the most recurrent motifs in his work. The artist identifies this element with several aspects of his own biography. The palm tree appears as a symbol of endurance at all times, a trait linked with his life experience so far.

It's not a photo, it's a moment

"Forest" is a work by the Spanish photographer Samuel Cano. Thanks to his patience and passion for unique scenes, he captures this natural landscape in such a way that it feels like entering a Swiss forest.

Art in its purest state

“Flamingo” is a work by the Spanish artist Monica Jimeno. For this realistic painting, the artist has chosen vibrant colours that express energy and passion. This is the common element of the entire “Birds” collection in which the artist portrays different exotic birds on a white canvas.

Unlimited connectivity

Dress your home with your favourite music thanks to all connectivity options offered by this canvas. It features a USB and microSD MP3 player as well as a built-in FM radio to listen to your favourite radio stations.
