ASSISTANT

## A wireless world

Listen to all your tracks wirelessly via Bluetooth 5.0. You can also turn the volume up or down, switch to the next or previous track, enable the voice assistant on your smartphone and answer calls. All this without touching the device.

## No more noise

Active Noise Cancelling technology blocks background noise, thus allowing you to enjoy your music without being disturbed. Enable ANC to discover a new way of listening to music.

## Choose how you want to travel

Need to relax on your next trip? Enable ANC mode and make the most of a quiet atmosphere with the 40-hour battery life. If you'd rather listen to music, enable Bluetooth mode and enjoy up to 16 hours of music playback. You can also listen to music for 12 hours non-stop, if you enable both ANC and Bluetooth.

## Store them easily

Take them with you everywhere. The 90-degree rotating ear pads and the folding system allow them to be stored anywhere without taking up much space.

### CONNECTIVITY

Bluetooth: 5.0

Range: 20 m

Frequency band: 2.4 GHz

Maximum output signal: < 20 dBm

### AUDIO

Frequency response: 20 ~ 20,000 Hz

Driver diameter: 40 mm

SPL: 112 ± 3 dB

Neodymium magnet

Design: closed

Type: dynamic

Impedance: 32 Ohm

THD < 1%

### ACTIVE NOISE CANCELLING (ANC)

Reduces up to -18 dB at frequencies between 20 and 1000 Hz

### CABLE

Length: 120 cm

Plug: 3.5 mm mini jack

### MICROPHONE

Sensitivity: -42 dB ± 3 dB (@1 kHz)

### BATTERY

Capacity: 300 mAh

Type: lithium polymer

Battery life at 50% volume: 16 hours

- Bluetooth ON and ANC ON: 12 hours

- ANC ON (without music): 40 hours

Charging time: 3 hours

Charging port: microUSB type-B

\*This value is approximate. Battery life depends on the volume selected and the type of music played.
