eReader Pro 4

The pleasure of reading on a touchscreen with built-in light and Wi-Fi

E-book reader with 6" E-Ink touchscreen and Carta technology, built-in light ("Screenlight"), anti-glare system, Wi-Fi, Android operating system and 8 GB internal memory to experience reading in many different ways.

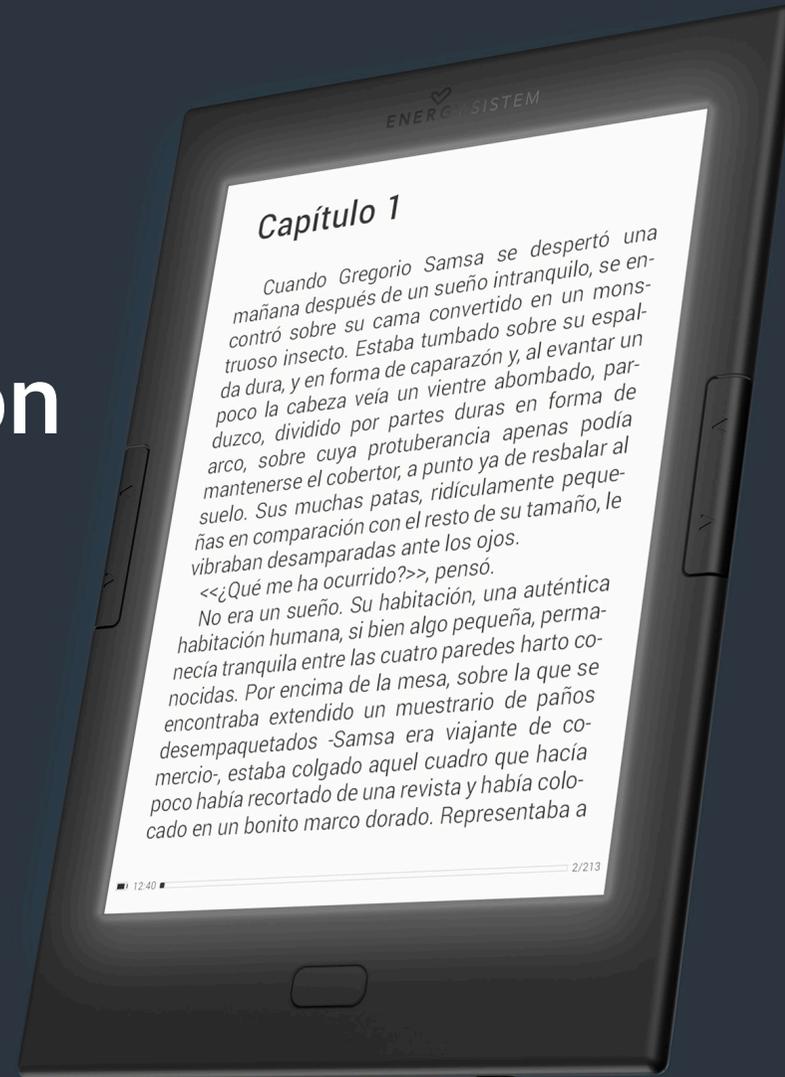

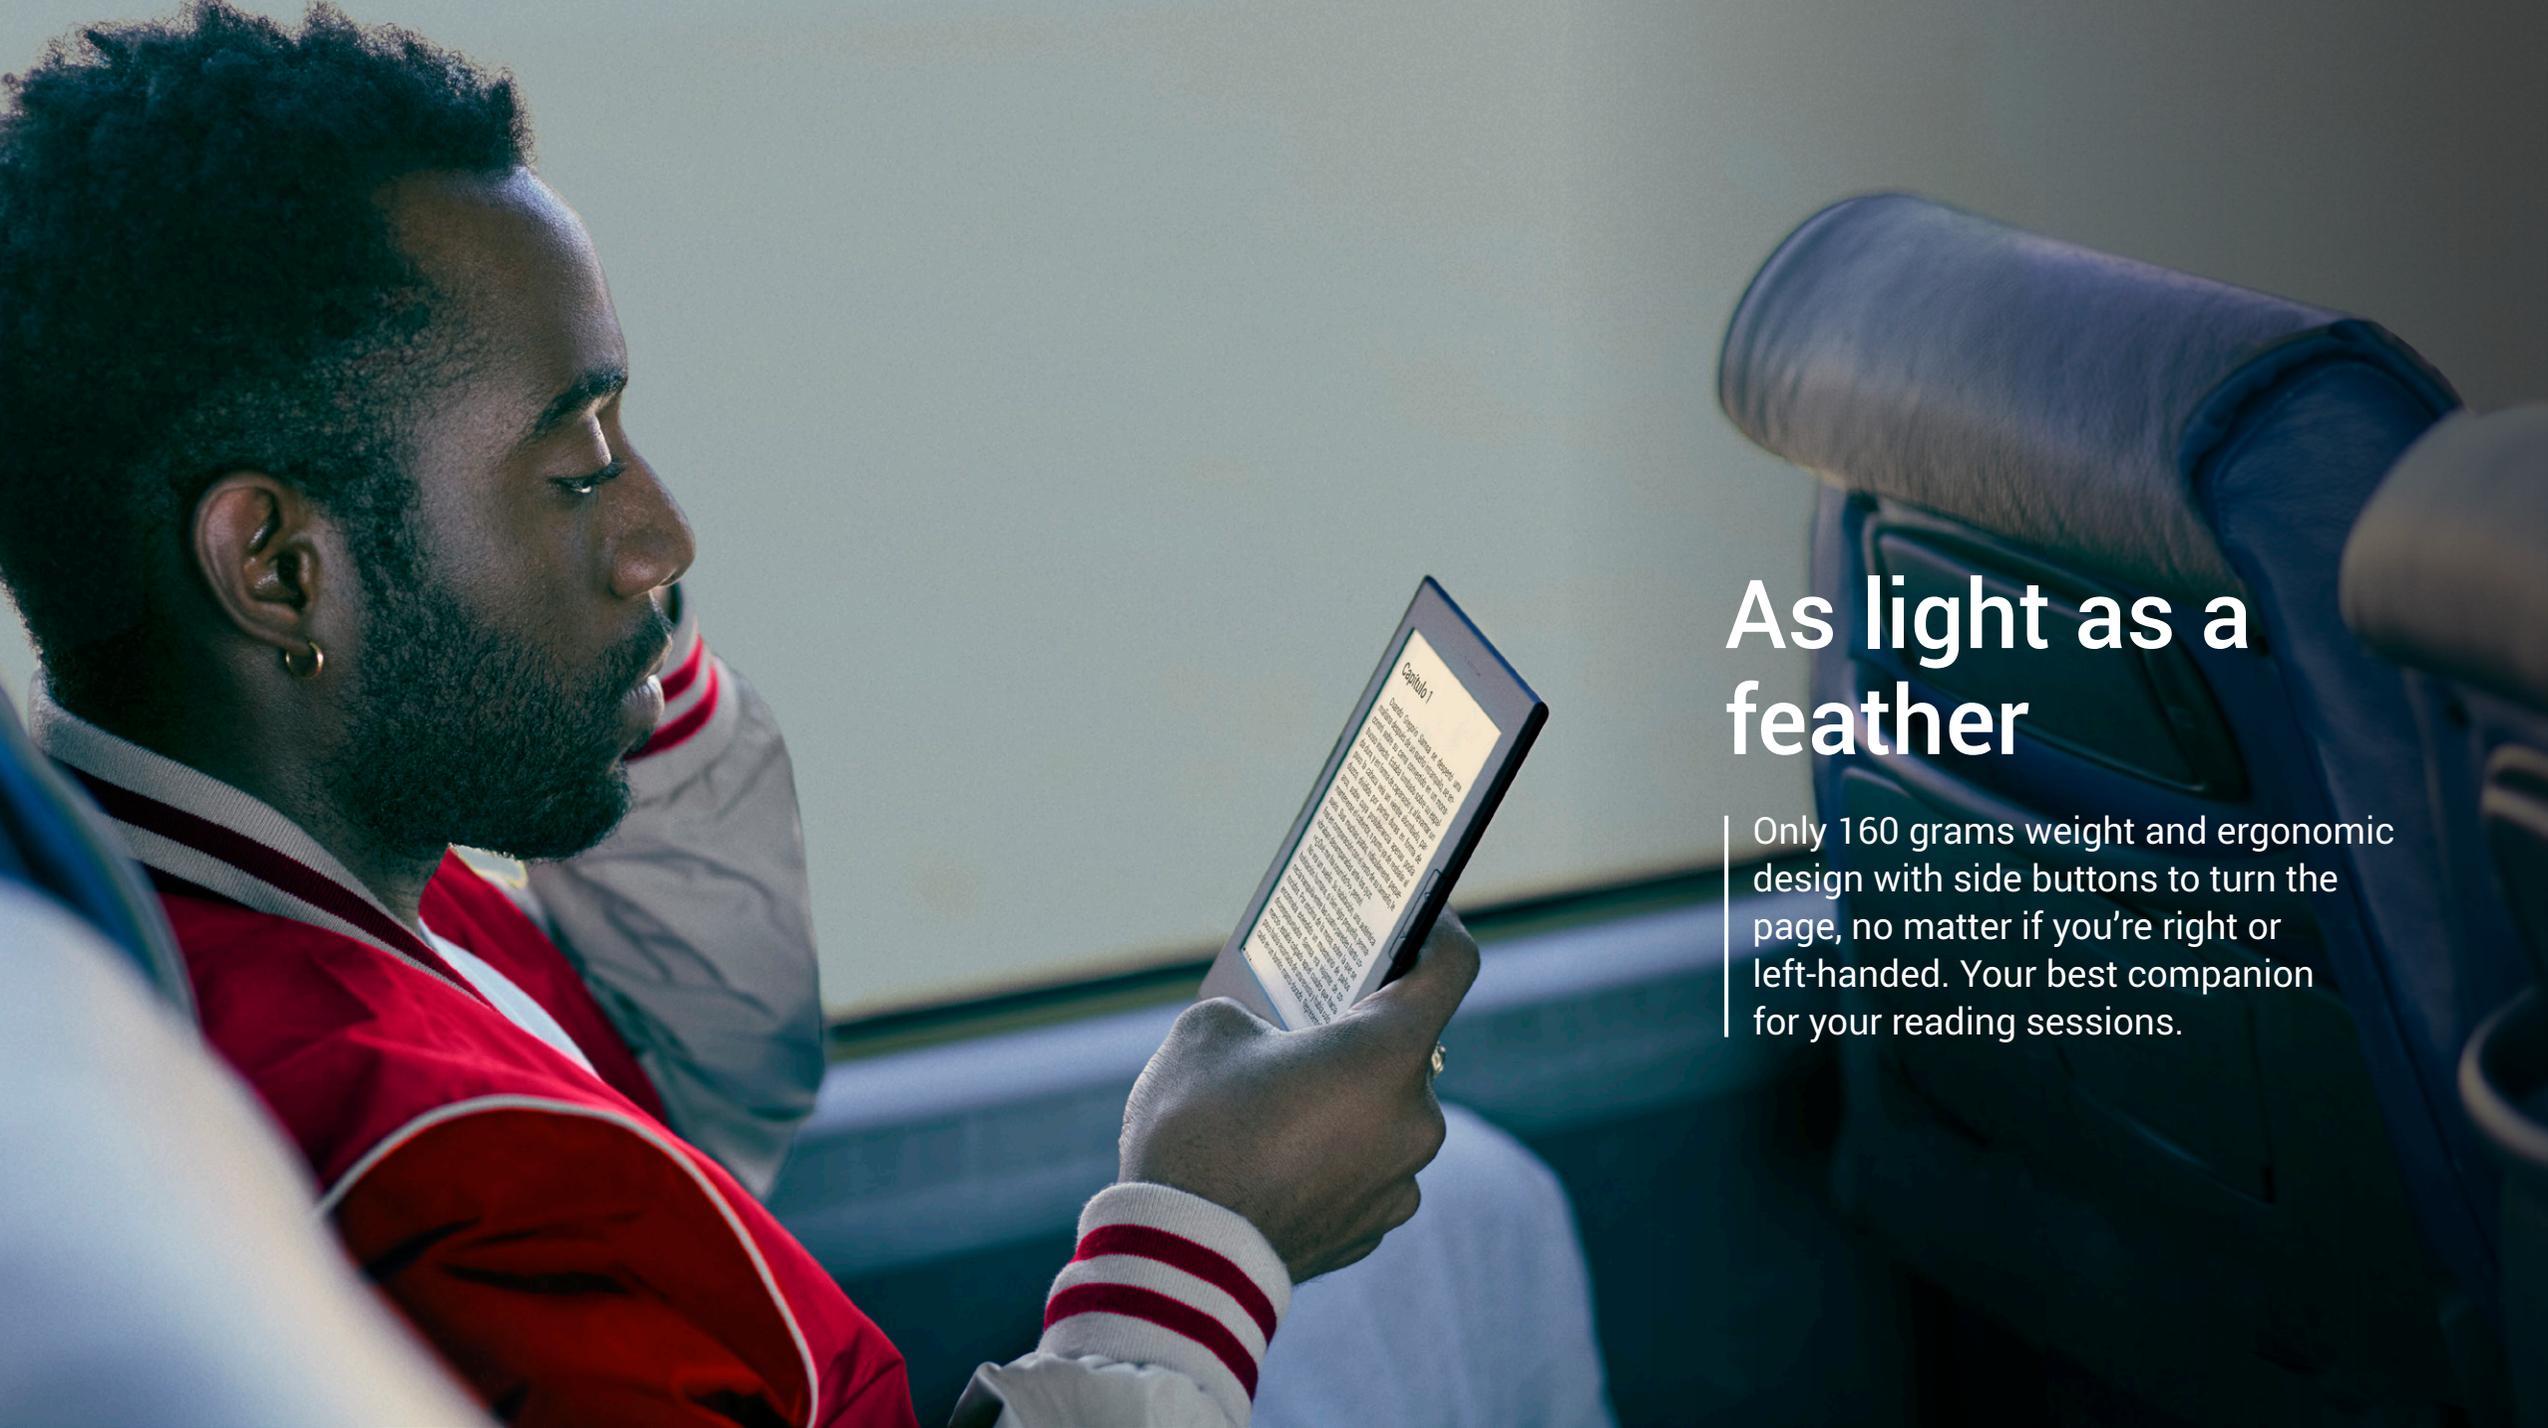

Dive into an extraordinary e-book universe

6" E-Ink Carta touchscreen with 16 grey levels to offer a high quality reading experience without tiring your eyes, even after long reading sessions.

Neither glare nor reflection

If you are one of those people who love to read at night, enable the Screenlight option and enjoy your book without disturbing anyone. The anti-glare system prevents glare and reflection while reading in the sunshine, without tiring your eyes and offering an optimal reading experience from different viewing angles.

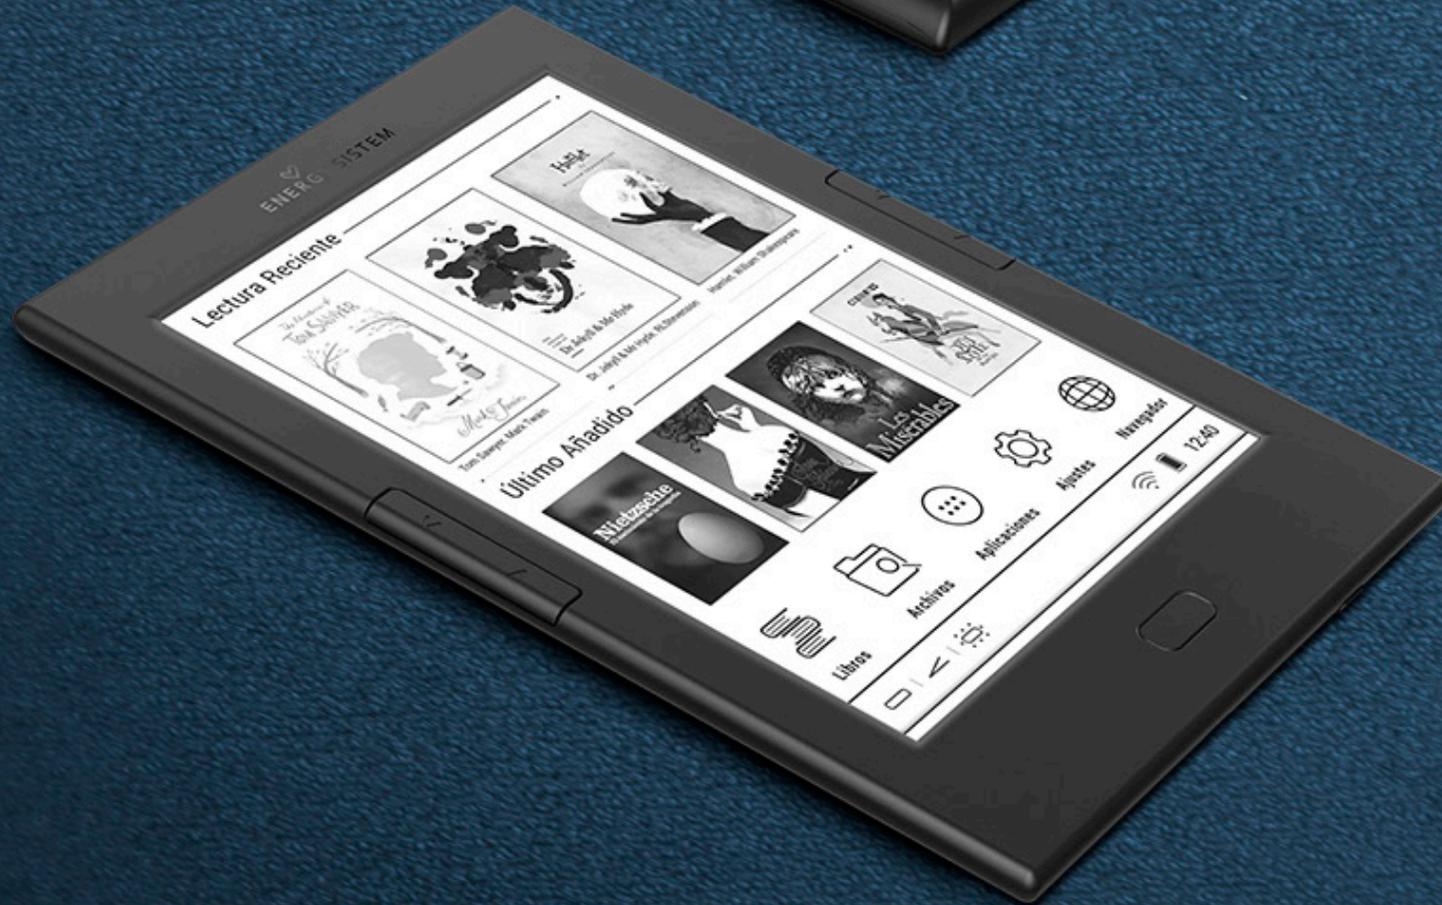

As light as a feather

Only 160 grams weight and ergonomic design with side buttons to turn the page, no matter if you're right or left-handed. Your best companion for your reading sessions.

Download all the contents you want

The Wi-Fi connection and the Android operating system let you download all your e-books and store them on the 8 GB internal memory, expandable by a further 128 GB via microSD cards. It also includes 1,500 free classics of Universal Literature.
